RESPONSE TO NOTICE OF ALLOWANCE

Dear Commissioner:

Responsive to the notice of allowance dated March 19, 2008, the courtesy of the Examiner in setting forth reasons for allowable subject matter is acknowledged with appreciation.

The reference to the failure of the prior art to teach or suggest features including "electrostatically transducing the combined bass signal" is not set forth in the claims or the application, and the Examiner was apparently referring to "electroacoustically transducing the combined bass signal."

There may be other reasons that support the patentability of the claims. For example at least the reasoning set forth on pages 7-10 of the decision of the Board of Patent Appeals and Interferences dated December 4, 2007, supports patentability of the claims.

Respectfully submitted,
FISH & RICHARDSON P.C.
